This plan does not include a handset. You must provide a suitable handset capable of working on the Vodafone 4G network or purchase one outright from innoTel.

Your plan does not include any International Calling or Overseas Roaming allowances and you need to contact us to activate International Roaming if you

intended to travel with this service. Calls to premium numbers (e.g. 19xx numbers) and some satellite numbers are not available with this service.

SMS Alerts for Data Usage

SMS alerts will be sent to you when you reach 50%, 85% and 100% of your monthly data allowance. There may be delays of up to 72-hours with these alerts.

Qualifications

In the month of activation and cancellation, any data and call allowances will be pro-rata for the number of days the service is active. Any unused allowances expire and the end of your billing cycle.

International Call and Text Allowance

If your chosen plan includes an international call and text monthly allowance, once you have exhausted that allowance, you will be charged our standard international call rates - see next page.

International Calls

Calls to international destinations not included in your plans allowance vary in price. A list of countries and their call rates are listed at: www.innotel.com.au/mobile/international-rates/

International Roaming is disabled by default. To activate International roaming, please contact customer service after you have received your SIM card. While roaming, calls, SMS/MMS & data are charged at higher rates and are not part of your plan's allowances. We recommend disabling Mobile Data before travelling to ensure you do not incur unexpected & high data usage fees. Delays of up to 30-days can be expected before roaming usage appears in the portal and your bill due to delays receiving usage records from overseas carriers.

If you fail to pay your invoices on the due date specified in your invoices, a late payment fee of \$15.00 will be applied to your account and your services may be suspended or cancelled.
